Manufactured and Guaranteed by: Nestlé Purina PetCare Company, St. Louis, MO 63164 USA

Animal feeding tests using AAFCO procedures substantiate that Pro Plan Small Bites 27/17 Lamb & Rice Formula provides complete and balanced nutrition for all life stages, including growth of large sized dogs (70 lb. or more as an adult).

RECOMMENDED DAILY FEEDING AMOUNTS

Weight Range (lbs)	(kg)	Feeding Amount (cups)	(grams)
3 - 12	1.4 - 5.4	1/3 to 1	37 to 112
13 - 20	5.9 - 9.1	1 to 1-1/3	112 to 149
21 - 35	9.5 - 15.9	1-1/3 to 2	149 to 223
36 - 50	16.3 - 22.7	2 to 2-1/3	223 to 260
51 - 75	23.1 - 34.0	2-1/2 to 3-1/4	279 to 363
76 - 100	34.5 - 45.4	3-1/4 to 4	363 to 446
Over 100	Over 45.4	4 cups plus 1/4 cup for each 10 lbs of body weight over 100 lbs	446 g plus 28 g for each 4.5 kg of body weight over 45.4 kg

Using a standard 8 oz/250 ml measuring cup which contains approximately 112 g of Pro Plan.

We recommend that you keep your dog in ideal body condition and not allow your dog to become overweight. The exact amount of food your dog requires will need to be adjusted according to age, activity and environment. But a good place to start is with these guidelines for an average, active, adult dog fed once daily.

FEEDING WEANING PUPS

Start puppies on dry or moistened Pro Plan as early as they begin to nibble at solid foods, generally 3 - 4 weeks of age.

FEEDING GROWING PUPS

Feed pups (to six months of age) all of the moistened Pro Plan they will consume at intervals throughout the day. If fed dry, Pro Plan may be kept before pups at all times.

FEEDING FOR REPRODUCTION

Pro Plan provides the extra nutrition needed by reproducing females in stages of gestation and lactation. Food consumption may vary during gestation, so feed the amount needed to maintain the pregnant female's ideal body condition. Food intake may double or even quadruple during lactation.

MAKING THE SWITCH TO PRO PLAN

Although you'll be anxious to see the difference Pro Plan can make in your dog, please allow 7 - 10 days to ease the transition from your dog's current food. Each day, simply feed a little less of the previous food and a little more Pro Plan until you're feeding Pro Plan exclusively. This gradual transition will help avoid dietary upsets.

Contains a source of live (viable) naturally occurring microorganisms.

Provide adequate fresh water in a clean container daily.

For your pet's health, see your veterinarian regularly.
