H444620

Manufactured and Guaranteed by: Nestlé Purina PetCare Company, St. Louis, MO 63164 USA

Animal feeding tests using AAFCO procedures substantiate that Pro Plan Giant Breed Chicken & Rice Formula provides complete and balanced nutrition for maintenance of adult dogs.

RECOMMENDED DAILY FEEDING AMOUNTS

Weight Range		Feeding Amount	
(lbs)	(kg)	(cups)	(grams)
76 - 100	34.5 - 45.4	4 to 5	404 - 505
Over 100	Over 45.4	5 cups plus 1/4 cup for each 10 lbs of body weight over 100 lbs	505 g plus 25 g for each 4.5 kg of body weight over 45.4 kg

Using a standard 8 oz/250 ml measuring cup which contains approximately 101 g of Pro Plan.

We recommend that you keep your dog in ideal body condition and not allow your dog to become

overweight. The exact amount of food your dog requires will need to be adjusted according to age, activity and environment. But a good place to start is with these guidelines for an average, active, adult dog fed once daily.

MAKING THE SWITCH TO PRO PLAN

Although you'll be anxious to see the difference Pro Plan can make in your dog, please allow 7 - 10 days to ease the transition from your dog's current food. Each day, simply feed a little less of the previous food and a little more Pro Plan until you're feeding Pro Plan exclusively. This gradual transition will help avoid dietary upsets.

Contains a source of live (viable) naturally occurring microorganisms.

Provide adequate fresh water in a clean container daily.

For your pet's health, see your veterinarian regularly.
