Manufactured by: Nestlé Purina PetCare Company, St. Louis, MO 63164 USA

Fancy Feast With Ocean Fish & Salmon is formulated to meet the nutritional levels established by the AAFCO Cat Food Nutrient Profiles for all life stages.

RECOMMENDED DAILY FEEDING AMOUNTS

Weight	Dry Alone*	Dry* + Canned (one 3 oz can)	Dry* + Canned (two 3 oz cans)
5 - 9 lbs	1/4 to 1/2 cup	1/8 to 1/3 cup	up to 1/6 cup
10 - 14 lbs	1/2 to 3/4 cup	1/3 to 2/3 cup	1/4 to 1/2 cup

*Using a standard 8 oz measuring cup

ADULT CAT FEEDING INSTRUCTIONS

These amounts are averages and your cat's needs may differ. Feeding should be adjusted as necessary to maintain an ideal body condition.

KITTEN FEEDING INSTRUCTIONS

Kittens generally nibble solid foods at 3 - 4 weeks of age. Keep moistened Fancy Feast available to these kittens at all times. After weaning, at 6 - 8 weeks of age, kittens will normally eat dry or moistened food at will. If water is added, use no more than one part warm (not hot) liquid to three parts Fancy Feast, changing frequently to ensure freshness.

FEEDING FOR REPRODUCTION

Fancy Feast provides the extra nutrition needed by reproducing females in stages of gestation and lactation. Food consumption may vary during gestation, so feed the amount needed to maintain the pregnant female's good body condition. Food intake may double or even quadruple during lactation.

FEEDING TIP

Changes in your pet's diet should be made gradually to allow your pet to become accustomed to a new food. Substitute small amounts of the new food for the old food, gradually increasing the amount of the

new food while decreasing the old food, over a period of 7 - 10 days.

WATER

Adequate water intake is necessary to maintain your cat's health and body functions. Provide fresh water in a clean bowl daily.

For your pet's health, see your veterinarian regularly.
