Manufactured by: Nestlé Purina PetCare Company, St. Louis, MO 63164 USA

Purina Friskies Gravy Swirlers is formulated to meet the nutritional levels established by the AAFCO Cat Food Nutrient Profiles for all life stages.

After exploring and playing, it's time to refuel.

RECOMMENDED DAILY FEEDING AMOUNTS

Weight (lbs)	Feeding Amount	
	Dry Food Only (cups)	Dry + Canned (cups + oz)
5-9	1/2 - 3/4	or 1/4 - 1/3 + 3 - 6
10-14	3/4 - 1	or 1/3 - 1/2 + 6 - 8

Using a standard 8 oz measuring cup

These amounts are averages and your cat's needs may differ. So feeding should be adjusted as necessary to maintain an ideal body condition. Want some variety? Serve it up by feeding your cat Purina Friskies canned in addition to or mixed with Purina Friskies dry. Remember, cats are nibblers who enjoy eating small meals throughout the day, so your cat would appreciate it if you keep a bowl of Purina Friskies dry cat food available at all times. Keep in mind, pregnant and nursing cats may require 2 - 4

times their normal feeding.

LUCKY ENOUGH TO HAVE A KITTEN?

Kittens generally nibble solid food at 3 - 4 weeks of age. Keep moistened Purina Friskies available to these kittens at all times. After weaning (at 6 - 8 weeks of age), kittens will normally eat dry or moistened food at will. If water is added, use no more than one part warm (not hot) liquid to three parts Purina Friskies, changing frequently to ensure freshness.

CURIOUS ABOUT OTHER FRISKIES FLAVORS?

Remember, changes in your cat's diet should be made gradually to allow your cat to become accustomed to a new food. Substitute small amounts of the new food for the old food, gradually increasing the amount of the new food while decreasing the old food, over a period of 7 - 10 days. This gradual transition will help avoid dietary upsets - something both you and your cat can appreciate.

Provide adequate fresh water in a clean container daily.

For your pet's health, see your veterinarian regularly.

ABBREVIATED FEEDING DIRECTIONS: RECOMMENDED DAILY FEEDING AMOUNTS Using a standard 8 oz measuring cup

Weight Feeding Amount	
(lbs)	(cups)
5 - 9	1/2 - 3/4
10 - 14	3/4 - 1

These amounts are averages and your cat's needs may differ. Feeding should be adjusted as necessary to maintain an ideal body condition. Feed kittens and pregnant or nursing cats all they will eat three times per day.

Provide adequate fresh water in a clean container daily.

For your pet's health, see your veterinarian regularly.
