Manufactured by: Nestlé Purina PetCare Company, St. Louis, MO 63164 USA

Beyond Kitten Chicken and Oatmeal Recipe is formulated to meet the nutritional levels established by the AAFCO Cat Food Nutrient Profiles for all life stages.

RECOMMENDED DAILY FEEDING AMOUNTS

Age of Kitten (weeks)	Weight of Kitten (lbs)	Weight of Kitten (kg)	Feeding Amount (cups)	Feeding Amount (grams)
4 - 12	1 - 3	0.5 - 1.4	1/4 to 2/3	30 to 79
12 - 24	3 - 5	1.4 - 2.3	1/3 to 3/4	40 to 89
24 - 36	5 - 7	2.3 - 3.2	1/2 to 3/4	59 to 89
36 - 52	5 - 14	2.3 - 6.3	1/2 to 3/4	59 to 89
Over 1 year	5 - 14	2.3 - 6.3	1/2 to 3/4	59 to 89

Recommended daily feeding amounts for kittens with normal activity using a standard 8 oz/250 ml measuring cup which contains approximately 118 g of Purina Beyond. This product is not intended to be

fed as a milk replacer.

KITTEN FEEDING INSTRUCTIONS

Kittens generally nibble solid foods at 3 - 4 weeks of age. Keep moistened Purina Beyond available to these kittens at all times. After weaning, at 6 - 8 weeks of age, kittens will normally eat dry or moistened food at will. If water is added, use no more than one part warm (not hot) liquid to three parts Purina Beyond, changing frequently to ensure freshness. Food intake required to maintain ideal body condition will vary, depending on age, activity and environment. As kittens near adulthood, their calorie needs may decrease. Monitor your kitten's weight and continue to adjust food amount accordingly to maintain ideal body condition and avoid excess weight gain.

MAKING THE SWITCH TO PURINA BEYOND

Although you'll be anxious to see the difference Purina Beyond can make in your kitten, please allow 7 - 10 days to ease the transition from your kitten's current food. Each day, simply feed a little less of the previous food and a little more Purina Beyond until you're feeding Purina Beyond exclusively. This gradual transition will help avoid dietary upsets.

NO SUPPLEMENTS NECESSARY

Purina Beyond provides 100% complete and balanced nutrition for the growth of kittens and reproducing females in stages of gestation and lactation. There is no need to add vitamins, minerals or other supplements, unless specifically directed by a veterinarian.

FRESH WATER, PROPER DIET & VETERINARY CARE

Be sure to provide fresh water in a clean container for your kitten daily. Proper diet, exercise and veterinary care are the best ways to keep your kitten healthy. If your kitten hasn't had a check-up recently, please make an appointment today.

Contains a source of live (viable) naturally occurring microorganisms.
