

OUR SHARED COMMITMENT TO SAFETY GUIDELINES

We, at Purina Farms, recognize that COVID-19 is still here. We also recognize that we have turned a corner and can once again safely operate with everyone's continued cooperation and diligence.

Purina Farms, including the Visitor Center, has re-opened its doors. We will continue operating at a limited capacity while strictly adhering to applicable safety guidelines recommended by the federal, state, and local guidelines including Center for Disease Control and Prevention (CDC). We will be hosting a series of events - which will require advanced registration at the **Purina Event Center** and surrounding outdoor event areas on property. For the time being, we will not have spectators at these events, but we will continually update you as we progress in our journey towards re-opening at full capacity as soon as it is safe to do so.

The Visitor Center has re-opened with a limited capacity, thus advanced reservations will be required. Additional operational decisions will be made based on the most up-to-date health and medical guidance, putting the safety and well-being of our people and our pets above everything else. Additional changes to our existing safety measures may be implemented as the COVID-19 situation changes in the greater St. Louis region and additional guidance becomes available.

At Purina Farms, we believe we have a shared responsibility to keep each other and our pets safe and healthy. We continue our core precautionary measures to maintain the safety and well-being of our people and pets and the animals that call Purina Farms home. We appreciate everyone's commitment to promoting appropriate social distancing, regular and thorough handwashing and wearing face coverings when applicable. See expanded face covering guidelines below.

- **ADVANCED EVENT REGISTRATION REQUIRED:** All events require pre-registration. Walk-ups will not be allowed. More information on events and reservations can be found at purinafarms.com
- **LIMITED EVENT ATTENDANCE:** Facilities and events will operate at limited capacity based on St. Louis area guidelines. We will continue to update these as local guidelines allow. For now, spectators are not allowed at events. (*Capacity constraints will be adjusted based on current COVID-19 guidelines.*)
- **FACE COVERING REQUIRED:** In alignment with federal, state, local, and CDC guidelines, masks will be required for all indoor public places for individuals age 5 and older, including those who have been vaccinated against COVID-19. Masks will be strongly encouraged outdoors, especially in group settings, but not required. If for some medical reason you are unable to wear a face covering, we will determine if there is another alternative for you [and others] to safely enjoy Purina Farms. In line with our culture of trust and mutual respect, we will not be requiring proof of vaccination. We do, however, expect everyone to be honest with each other.

- **PHYSICAL DISTANCE REQUIREMENTS:** All event participants and guests must follow appropriate social distancing restrictions of six feet or more from others and avoid physical contact with anyone else, including other pets. Floor markings and signage will continue to serve as reminders to maintain social distancing.
- **HYGIENE AND HAND WASHING:** All event participants and guests should wash their hands frequently with soap and water for at least 20 seconds as well as frequently using hand sanitizer located at stations around the facility and its perimeter. Everyone is encouraged to avoid touching their eyes, nose and mouth with unwashed hands and to properly cover their nose and mouth when coughing or sneezing.
- **ADVANCE CLEANING PROTOCOLS:** Common use items and equipment, including drinking fountains and dog watering stations, will not be available for the time being. Restrooms will be frequently cleaned and disinfected.

Doing Our Part

All Purina Farms staff and team members will continue the following healthy steps:

- Frequently cleaning and disinfecting commonly used and high touch surfaces.
- Social distancing from guests and their pets.
- Reinforced training on appropriate actions to take if anyone becomes ill or begins displaying COVID-19-like symptoms while on the property.

Our Handling in Case of Illness

Anyone feeling ill or having symptoms consistent with COVID-19 - such as fever, cough, chills, muscle pain, headache, sore throat or shortness of breath - should stay home, or if already on property, they should immediately report their symptoms to Purina Farms security by notifying a member of the Purina Farms team or calling 314-982-222 and isolating themselves from others.

In such event, we will gather all pertinent information to allow Purina Farms to take the appropriate actions, including isolating the person from others and disinfecting the area, as quickly as possible. Anyone feeling ill or exhibiting symptoms will immediately be asked to leave the property. An ambulance will be called for severe illness if needed.

Note: *By visiting Purina Farms property, all event participants and guests acknowledge and agree to abide by all posted guidelines and understand that they are responsible for their personal safety and that of the children and/or pets under their supervision. Any event participant or guests who refuse to comply with guidelines, even after warnings, will be refused entry (if not already on property) or will be asked to leave (with no refund if applicable) and will not be allowed back for the remainder of the event. These actions are at the sole discretion of Purina Farms.*
