Manufactured and Guaranteed by: Nestlé Purina PetCare Company, St. Louis, MO 63164 USA

Purina Beyond Simply Small Dog White Meat Chicken, Barley & Egg Recipe is formulated to meet the nutritional levels established by the AAFCO Dog Food Nutrient Profiles for maintenance of adult dogs.

RECOMMENDED DAILY FEEDING AMOUNTS

Weight Range (lbs)	Weight Range (kgs)	Feeding Amount (cups)	Feeding Amount (grams)
3 - 12	1.4 - 5.4	1/3 to 1	41 - 122
13 - 20	5.9 - 9.1	1 to 1-1/4	122 - 153

ADULT DOG FEEDING INSTRUCTIONS

The recommended feeding amounts indicated are based upon the average nutritional needs of an adult dog with a normal activity level (using a standard 8 oz/250 ml measuring cup, which contains approximately 122 g of Purina Beyond).

Research shows that keeping your dog in ideal body condition, which includes a healthy weight, is very important in helping him live a long, healthy life. Our feeding guidelines are based on an average,

normally active, adult dog. Ideal body condition may vary based on your dog's metabolism, breed size, activity level or whether your dog is spayed or neutered.

Start with our recommended amount and monitor your dog's weight, adjusting the amount if your pet's weight fluctuates. You should be able to easily feel your dog's ribs and see an hourglass figure when viewed from above. Monitor your dog's weight regularly to help impact his lifelong health.

MAKING THE SWITCH TO PURINA BEYOND

Although you'll be anxious to see the difference Purina Beyond can make in your dog, please allow 7 - 10 days to ease the transition from your dog's current food. This will help avoid dietary upsets. Each day, simply feed a little less of the previous food and a little more Purina Beyond until you're feeding Purina Beyond exclusively.

NO SUPPLEMENTS NECESSARY

Purina Beyond provides 100% complete and balanced nutrition for adult dogs. There is no need to add vitamins, minerals or other supplements, unless specifically directed by a veterinarian.

FRESH WATER, PROPER DIET & VETERINARY CARE

Be sure to provide fresh water in a clean container for your dog daily. Proper diet, exercise and veterinary care are the best ways to keep your dog healthy. If your dog hasn't had a check-up in the past year, please make an appointment today.

Contains a source of live (viable) naturally occurring microorganisms.
