K453020

Manufactured by: Nestlé Purina PetCare Company, St.Louis, MO 63164 USA

Kitten Chow Nurture Muscle + Brain Development is formulated to meet the nutritional levels established by the AAFCO Cat Food Nutrient Profiles for all life stages.

RECOMMENDED DAILY FEEDING AMOUNTS

Using a standard 8 oz measuring cup

Age	Total Daily Amount	Frequency
3 - 6 weeks	1/4 to 1/3 cup	3 - 4 times a day
7 weeks - 6 months	1/3 to 3/4 cup	3 - 4 times a day
7 months - 1 year	1/2 to 3/4 cup	2 times a day

FEEDING KITTENS

Kittens generally nibble solid foods at 3 - 4 weeks of age. Keep moistened Purina Kitten Chow Nurture available to these kittens at all times. Just add one part liquid to three parts Purina Kitten Chow Nurture, changing frequently to ensure freshness. After weaning, at 6 - 8 weeks of age, kittens will normally eat dry or moistened food at will. Start a self-feeding program, leaving food in dish at all times. Feeding amounts should be adjusted as necessary to help your kitten maintain an ideal body condition. Because kittens continue to develop throughout their first year, it's important that they get the extra nutrition of Purina Kitten Chow Nurture for a full 12 months. After one year of age, transition to the Purina Cat Chow formula that's right for your cat.

FEEDING FOR REPRODUCTION

Purina Kitten Chow Nurture provides the extra nutrition needed by reproducing females in stages of gestation and lactation. Food consumption may vary during gestation, so feed the amount needed to maintain the pregnant female's good body condition. Food intake may double or even quadruple during

lactation.

FEEDING TIP

Changes in your cat's diet should be made gradually to allow your cat to become accustomed to a new food. Substitute small amounts of the new food for the old food, gradually increasing the amount of the new food while decreasing the old food, over a period of 7 - 10 days. This gradual transition will help avoid dietary upsets.

Provide adequate fresh water in a clean bowl daily.

For your pet's health, see your veterinarian regularly.
